

ASQ II Glasswasher

**Revolutionary in Concept
Revolutionary in Design**

**Combining the cleaning power of a
dishmachine with the convenience
of a carousel system**

American Dish Service
Manufacturers of Ware Washing Equipment

The ASQ II Glasswasher is revolutionary in both concept and design. It offers the cleaning action of a dishmachine in a carousel system. The carousel is divided into three positions by stainless steel panels. These panels isolate each compartment, controlling the water and washing action of the rotating spray.

With the push of the lever, the manual carousel easily rotates and locks into the next position. While the glasswasher does the cleaning, the bartender can unload spot-free glasses and load the glassware to be washed, efficiently cleaning full loads.

STANDARD FEATURES

- Full load washing - saves power, water, and chemicals
- Fast - only 75 seconds per cycle
- Rotating spray arm - provides outstanding results
- Divided carousel, creates a washing chamber that cleans with a recirculating, high-volume water spray
- Load, unload & wash simultaneously
