

American Dish Service™

Manufacturers of Ware Washing Equipment

Delivering consistent quality, durability and reliability.

IRMA

The Future of Clean is Here! Our innovative, low-maintenance dish machine controller reduces site visits, quantity of consumables, and the overall bottom line of ownership.

- Quick connections to pumps and electronics, incredibly flexible
- Innovative technology to assist your field technicians
- Reduced tech support visits
- Quick-release for fast replacement
- Custom branding capabilities
- Apple and Android App for easy programming and report generation

ADC-44 Conveyor

- **244 racks per hour**
- Choose high-temp or low-temp models, left or right operation
- Fully automatic with no operator controls, just insert racks
- Consumes less than half a gallon of water per rack
- High-efficiency sustainer heaters
- Dual rinsing system with "water curtain"
- Two-stage drain/pump filter reduces clogged jets

NoKam™

A Plug and Play Replacement for the Conventional Mechanical Cam Timer

- Configurable to run either a 90, 120 or 150 second cycle controlling the wash motor, fill valve, drain valve and chemical pumps
- The device automatically calculates the most efficient program based on the relevant water, drain and cycle times being set. The chemical dosing is controlled to start at the correct times.
- Autostart and machine pause is available

ADC-66

- The ADC-66 offers all of the same features as the ADC-44 **plus an automatic power prewash**
- Power scrap tank with ADS deep "V" design
- Overflow scrapping
- Reduces Re-washing

ADC44 & ADC66 come in a TALL version (6" taller)

UNDERCOUNTER

HUB-40

Undercounter high-temperature dishwashing machine with built-in booster heater.

- **“Extenda-Cycle”** – extends the cycle time to ensure 180°F/82°C final rinse
- Universal power, 208-240 volt and/or single to three phase, field convertible
- Smooth start for protection from breakage
- Noise-reducing double wall design
- Complete cycle time 90 seconds

ASQ II Glasswasher

- **Full load washing** – saves power, water and chemicals
- Fast – only 75 seconds per cycle
- Rotating spray arm
- Divided three compartments, manual carousel
- Load next compartment, unload clean compartment during wash cycle

ET Series

“ET” Series under-counter dishwashers are perfect for bars, small restaurants, or care facilities. The raised, short-throw door reduces operator bending & fatigue, with the cleaning power of a full-size machine.

- **Space-saving design**
- 90-second cycle time
- 1.7 gallons of water consumption per rack
- Automatic chemical feed
- 3” taller door version available
- High-capacity glass washer

DISHWASHERS

HT-25

The HT-25 washes faster while using less chemical, water and utility cost. Its versatile design is powerful and user friendly, built for speed and flexibility.

- **Corner or in-line configuration**
- Optional built-on 70 degree rise booster
- Patented self-cleaning spray system
- Auto fill & auto shut off
- Built-in scrap accumulator
- 1.25 gallons per rack
- 23" door opening

HT-34

- **72-second time cycle**
- Optional built-in 70 degree rise booster
- Patented self-cleaning spray system
- Auto fill and auto shut off
- ADS patented low-water tank clean
- Built-in scrap accumulator
- 0.85 gallons per rack
- 23" door opening

5AG-ES/5AG-S

Double-rack models multiply performance for the 90-second cycle, over 800 dishes per hour! In the 5AGES version, cleaning power and Energy Star performance are available, all while utilizing Low Temp sanitizing.

- **Dual rack operation with twin pumps, motors, intakes & sumps**
- Low-energy operation
- 74 racks per hour
- Automatic chemical dispensing
- Sheet pan capabilities
- On 120v, 40-amp for 5AG-S, 30-amp for 5AGES

AFB Bakery Dishwasher

The AFB is ideal for tall wares like pots, pans & sheet pans (when used with proper stainless-steel rack.) Its quality construction and reliability make it a time-saving solution for your needs, including glassware & flatware.

- **27.5" door opening with safety cut-off switch**
- Standard stainless steel sheet pan rack
- Built-in chemical dispenser

AWS/AWS-H Series

- **Under 1 gallon of water per rack**
- ENERGY STAR® RATED
- 20-amp, 115 volt electrical supply
- Powerful Stainless pump with upper & lower rotating spray arms
- Choose from 90, 120 or 150-second cycle time
- Full 19" door opening
- High pressure, 1.5 HP pump
- Built-in chemical dispensing

Over / Under Shelf / Booster optional

AF-3D-S/AFES

- **Greater door clearance – 20.5"**
- Quick service 1.5 HP pump
- Quick release spray arms
- Available with solid chemical dispensing
- Stainless steel air gap backflow
- Simple to clean
- AFES is rated ENERGY STAR®

L Series

The "L" series is the smart choice for speed & value. It is a convertible design, with only two doors opening in either direction for corner or pass through configurations. Gauges, controls, and serviceable parts are easily visible and accessible.

- **1.2 gallons of water consumption per rack**
- Efficient chemical usage with automatic feed
- Standard 90-second cycle, 72-second cycle optional
- Built-in scrap accumulator
- Two-stage drain/pump filter
