Adapter 082-6214 bayonet

Spray base gasket: 089-6201

Older Style Brass Spray Bases and Adapter circa 1990s

Brass bases were used even prior to 1980 and their use was continued through to 2008. They were changed over to the cast stainless spray bases and have been used since 2009 in ADS production machines. A Nichol/Bronze spray base adapter was first used with the brass bases from approx 1991 to 2000. After 2000 the thumb screw adapters were made from stainless.

Brass lower spray base 082-6206 (obsolete) unavailable

SS Spray base adapter 082-6205 (thumbscrew only)

Brass base required 7/8" comp x 1" MPT fitting (092-1009)

Chemicals erode the base, threads would no longer fit
